Service Weight Hub & Spigot Pipe and Fittings

Cast iron hub & spigot pipe and fittings (service weight) in 2" to 15" sizes meet all requirements of the Cast Iron Soil Pipe Institute and conform to all state and federal requirements, including the ASTM A74-98, CISPI HS-74, Federal Specification WW-P-401F, and ANSI-A-112.5.1 standards. All SV hub & spigot pipe and fittings bear the required product markings stating manufacturer and country of origin (USA), and are IAPMO listed.

Gaskets

Ty-Seal and EZ-Tite gaskets in sizes from 2" to 15" meet all state and federal requirements including ASTM C-564, and are IAPMO listed.
